

# Additional Data to be Gathered and Analyzed

---

County staff are in the process of identifying additional data and information that will be collected and analyzed in order to identify and validate the issues. Some examples are:

- Crime and Drug Statistics
- Fire and EMS data (calls, equipment, facility and personnel needs)
- Housing needs – affordability, senior housing needs
- Marcellus Shale - Drilling, employment, impacts
- Economic Data – Jobs losses, Workforce Development statistics
- Recreational amenities
- Stormwater management issues
- Transportation data
- Building permits issued for 2006-2015 – municipal level
- Police records – municipal level
- Growth along transportation corridors
- Vacant commercial and industrial properties identification
  - Small business and storefronts
- Sewer and Water infrastructure data
- Mass Transit usage, airport usage
- Social service cases
- School District facility plans
- Others?
