Notice of Intent to Issue Plan Approval
Plan Approval 41-00082A
Under 25 Pa. Code Section 127.4, the Department of Environmental Protection hereby provides notice that PPL Renewable Energy, LLC (Two North Ninth Street, BRN-PL-2 Allentown, PA 18101) has submitted to the Pennsylvania Department of Environmental Protection a plan approval application for the construction of a landfill gas to energy plant consisting of four (4) 1.6 megawatt CAT model G3520C lean burn engine/generators at the Lycoming County Landfill located in Brady Township, Lycoming County, Pennsylvania. The proposed landfill gas to energy plant will replace the currently owned and operated by the Lycoming County Resource Management Services. This facility will be a major (Title V) facility which is currently constructed and operating.

plan approval will be incorporated into a Title V operating permit via administrative amendment pursuant to 25 Pa. Code Sections 127.450. The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:
1. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 1.90 pounds per hour and 8.32 tons in any 12 consecutive month period.
2. Compliance with this condition assures compliance with the provisions of 40 CFR Part 60 Subpart JJJJ Section 60.4231. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 3.10 grams per brake horsepower hour, not exceed 4.85 pounds per hour and 16.89 tons in any 12 consecutive month period.
3. Compliance with this condition assures compliance with the provisions of 40 CFR Part 60 Subpart JJJJ Section 60.4231. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 1.0 grams per brake horsepower hour and 21.56 tons in any 12 consecutive month period.
4. Compliance with this condition assures compliance with the provisions of 40 CFR Part 60 Subpart JJJJ Section 60.4231. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 5.18 pounds per hour and 22.71 tons in any 12 consecutive month period.
5. Compliance with this condition assures compliance with the provisions of 40 CFR Part 60 Subpart JJJJ Section 60.4231. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 1.0 grams per brake horsepower hour and 21.56 tons in any 12 consecutive month period.

127.1 and 127.12, the volatile organic compound (VOC) emissions from each of the engines shall not exceed 1.90 pounds per hour and 8.32 tons in any 12 consecutive month period.
6. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 1.90 pounds per hour and 8.32 tons in any 12 consecutive month period.
7. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 3.10 grams per brake horsepower hour, not exceed 4.85 pounds per hour and 16.89 tons in any 12 consecutive month period.
8. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall not exceed 1.0 grams per brake horsepower hour and 21.56 tons in any 12 consecutive month period.
9. Within 180 days of initial operation of each engine, the permittee shall perform nitrogen oxides (NOx), carbon monoxide (CO), volatile organic compounds (VOCs), non-methane organic hydrocarbons (NMOC), formaldehyde, particulate matter and sulfur oxides (SOx) testing on the exhaust of the engine to determine compliance with the emission limitations for the engine. The testing shall be performed while the engine is operating at its maximum rate.
10. (a) At least sixty (60) days prior to the performance of the stack testing required by this plan approval, a test plan shall be submitted to the Department for evaluation. The test plan shall contain a description of the proposed test methods and dimensioned drawings or sketches showing the test port locations.
(b) The Department shall be given at least fifteen (15) days advance notice of the scheduled dates for the performance of the stack testing required by this plan approval.
(c) Within sixty (60) days of the completion of the

stack tests required by this plan approval, two copies of the test report shall be submitted to the Department. This report shall contain the results of the tests, a description of the testing and analytical procedures actually used in performance of the tests, all process and operating data collected during the tests, a copy of all raw data, and a copy of all calculations generated during data analysis.
11. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the permittee shall perform an annual adjustment and/or tune-up on each engine which shall include the following:
(a) Inspection, adjustment, cleaning or replacement of combustion equipment, including stationary and moving parts necessary for proper operation as specified by the manufacturer.
(b) Performance and documentation of annual maintenance of inspections necessary to ensure proper operations to minimize emissions of NOx and to the extent practicable minimize emissions of CO.
(c) Sampling of the final NOx and CO emission rates. This sampling shall be performed with portable metering equipment in accordance with applicable manufacturer's calibrating and operating procedures.
12. The permittee shall maintain records of the following:
(a) The amount of landfill gas being burned in each of the four engines on a daily basis.
(b) The exhaust temperature of each of the engines on a daily basis.
(c) The NOx, CO, formaldehyde and SOx emissions each month and the corresponding 12 consecutive month totals to verify compliance with the applicable emission limitations.

tions.
(d) The dates and status of any tuning procedures done on the engines.
(e) The number of hours each engine is in operation each month.
14. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the landfill gas generated by the Lycoming County Landfill shall be burned in the engines. Any time that the engines are not in operation, or more gas is generated than is capable of being burned by the engines, the landfill gas shall be controlled by the flares owned and operated by the Lycoming County Resource Management Services (LRMS) and the flares shall be operated in compliance with the terms and conditions of operating permit TVOP 41-00028. Under no circumstances shall the gas be vented directly to the atmosphere.
15. In accordance with the best available technology requirements of 25 Pa. Code Section 127.1 and 127.12, the four 1,600 kilowatt Caterpillar model G3520C lean burn landfill gas fired engines shall not be operated in excess of a total of 32,634 hours in any 12 consecutive month period.
16. The permittee shall submit a semi-annual report to the Department of the following:
(a) The NOx, CO, PM, VOC, NMOC, formaldehyde and SOx emissions each of the previous 6 months and the corresponding 12 consecutive month totals.
(b) The amount of landfill gas burned in each of the engines in the previous 6 months and the corresponding 12 consecutive month totals.
(c) The amount of hours each month that the engine individually was in operation the previous 6 months and the corresponding 12 consecutive month totals.
Copies of the application and Department's review of the application are available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third

Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at (570) 327-3633.
Interested persons may submit written comments, suggestions, or objections concerning the proposed plan approval to the regional office within 30 days of publication of this Notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the commenter, identification of proposed Plan Approval 41-00082A, and a concise statement regarding the relevancy of the information or objections to the issuance of the plan approval.
A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the Pennsylvania Bulletin or by telephone, where the Department determines that notification by telephone is sufficient. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Environmental Program Manager, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, 570-327-3648. Persons with a disability who wish to comment and require an auxiliary aid, service, or other accommodations to do so should contact the Department or the Pennsylvania AT&T Relay Service at (800) 654-5884 (TDD) to discuss how the Department may accommodate their needs.

Notice of Intent (NOI) 01-2011-0459) with the Susquehanna River Basin Commission (SRBC) seeking Approval by Rule (ABR) pursuant to 16 CFR 608.22(i) for the consumptive use of water for drilling and development of natural gas well(s) on the Lycoming H&FC Pad A drilling pad located in Cogan House Township, Lycoming County, Pennsylvania.
The peak day consumptive water use for drilling and development at the above drilling pad would not exceed 4,000,000 gallons per day (gpd). Anadarko Company LP has proposed to utilize water obtained from approved sources which can be viewed at www.srbcc.net.
A copy of the full text of the proposed ordinance may be examined by any citizen in the office of the Secretary of the local government unit at Pine Township Municipal Building, 925 Oregon Hill Road, Morris, Pennsylvania, on any business day (except Saturdays and Sundays) by appointment between the hours of 9:00 a.m. and 1:00 p.m., pre-vaiking time.
Pine Township Secretary
Shelly Johnston
The 5-County Region including Columbia, Lycoming, Montour, Snyder and Union Counties in Northcentral Pennsylvania, is developing a Regional Waste Management Plan in accordance with the provisions of Pennsylvania Act 101 of 1988 (Municipal Waste Planning, Recycling and Waste Reduction Act). As required in the Act, the Region has prepared a Solicitation of Interest (SOI) for the purpose of obtaining ten (10) year commitments (January 2013 through December 2022) for disposal capacity for the municipal waste generated within the 5-County Region during that period, and to discuss the Respondent's interest in helping support the integrated waste management and recycling needs of the Region. The waste facilities to be considered in the Region-1 Plan must be permitted and fully available for use prior to January 1, 2013. For further information or to obtain a copy of the SOI, all inquiries and requests from interested facility owners should be made, in writing, no later than 30 days from the date this notice is published, to: Dave Linnear, LRF Kimzal (consultant in charge of developing the Regional Plan), 615 West Highland Avenue, Ebensburg, PA 16630.
Notice is hereby given that on September 13, 2011, Anadarko Company LP has filed a
