Lycoming County Commissioners will vote on whether they will approve applying for an \$85,000 grant to help finance the Brodart project at Thursday's meeting.

"This is an exciting opportunity," said William Kelly, deputy director.

After the meeting, Kelly talked about how the grant would be used for the project that looks to develop housing for the area. "We will use this for environment site characterization, plus the preparation of what they call remediation plans," he said.
