

Spring 2021 Amendment Package

Lycoming County Planning Department staff have worked with the Lycoming County Planning Commission over the past eight months to develop a package of amendments to address various issues in the Lycoming County Zoning Ordinance and the Lycoming County Subdivision and Land Development Ordinance including the addition of Event Venues, Personal Storage, Mobile Compressors, and Accessory Solar Energy. Additionally a number of minor changes will be made to clarify the ordinance. The amendments were presented in a public meeting in November for feedback from our municipal partners. The amendments were recommended for approval at the January 21, 2021 Lycoming County Planning Commission meeting and sent to our municipal partners for comment. Comments on the proposed amendment may be forwarded to Mark Haas at mhaas@lyco.org or by calling 570-320-2146.
