- Finish Preliminary Plan Presentations
- Large Group: Combine Preliminary Plans into Final Plan
- Coordinate Presenters and Prepare Presentation to Borough Council
- Evaluations

PRESENTATION-February 9, 2010

- Presentation to Borough Council at 6:30 p.m.

WORKSHOP DETAILS...

Youth Ambassador Program Coordinators will present to students information they need to understand the project and purpose..

Feasibility Study is being prepared by the Corridor Plan Consultant Team and will be used as an educational tool throughout the Youth Ambassador Program.

Survey will be about what youth want Montgomery to be like in the future.. All ideas will be considered. Students will administer the survey to fellow classmates to see what they want to see in the Old Mill Corridor.

S.W.O.T Analysis examines the Strengths, Weaknesses, Opportunities, Threats of the area to identify assets and needs to get a better understanding of the Corridor.

Students will go on a bus tour of the Old Mill Corridor to better understand the location and get an idea about the size and scale..

Students in each class will use:
* SURVEY RESULTS
* S.W.O.T ANALYSIS
* FEASIBILITY STUDY
To help develop preliminary plans for the Old Mill Corridor.

Students will develop preliminary plan to highlight their ideas for the future of the Old Mill Corridor.

Students will present their preliminary plans to the larger group. The best elements of each preliminary plans will be combined to form the final plan for the Old Mill Corridor.

Representatives will be chosen from each grade to develop a presentation around the final plan they designed. Meeting with Representatives will be after school on February 5th run through presentation for Borough Council.

Student representatives will be invited to a regularly scheduled Montgomery Borough Council Meeting to present the final plan.

WORKSHOP LOCATION

- Montgomery School District Administration Building, Board Room , 120 Penn Street, Montgomery, PA 17752

WORKSHOP TIME

- 8:00 a.m. to 2:00 p.m.

OLD MILL CORRIDOR

Old Mill Corridor
Montgomery, PA

Borough of Montgomery - Old Mill Corridor

The Old Mill Corridor is located in Montgomery Borough South of Route 405 where currently old mills reside.

CORRIDOR PLAN OVERVIEW

The recently completed Lycoming County Brownfield Assessment Program identified and evaluated Brownfield opportunities in four municipal clusters around the County. Through that two corridors were identified as having an extremely high redevelopment potential. Two separate Corridor Plans will be developed, one for each of the following locations: the City of Williamsport and the Borough of Montgomery.

PROCESS

Through the utilization of a three-step approach involving Feasibility, Visioning and Implementation, the Corridor Plans will provide a comprehensive understanding of the areas and allow for community input to be integrated into realistic, implementable plans.

OUTCOMES

The Corridor Plans will give the municipalities the opportunity to plan for future development in a sustainable and innovative matter that highlights each municipality's individuality. With a long-range vision, the plans will provide a legacy for the future that transcends administrations, making this project adoptable and realistic.

TIMEFRAME

Project to be completed within 18-24 months
SPRING/SUMMER 2009

- Awarded Grant from DCED
- Contracted with Consultant Team
- Secured DEP Funding for Environmental Components

- Began Feasibility Study (4-5 months)

FALL 2009

- Begin Visioning Process (6-7months)

SPRING/SUMMER 2010

- Begin Implementation Strategy (7-8 months)

REALITY-BASED PLANNING

The Youth Ambassador Program was developed as part of the Visioning for the Old Mill Corridor Project. It focuses on getting input from youth about the future of the Borough of Montgomery.

The program will give youth the opportunity to engage in municipal planning. Their ideas will be integrated into the official Corridor Plan.
